Cast Iron Seats “C” Range and Leaf Design

Cast Iron Bench including Arms NACA6/8/12

Cast Iron Bench including Arms
CA6/8/12

Our “C” range and leaf design seats blend in well with almost any surroundings but are very popular for and suitable for commemorative seats in towns and villages, memorial gardens and public areas where appearance is important. The strong featured cast iron ends of our “C” type are a solid, sturdy construction to withstand any rough or harsh treatment which may be imposed in open spaces.

Supplied in either steel or hardwood timber slats and finished to individual colour schemes. A special version of this seat is available as a curved radius. Any radius can be manufactured to suit customer requirements.
